Academic Profile

Software Engineer with a Bachelor of Technology in Mechanical Engineering and professional experience in software development. Practical experience with web applications, programming, API integration, and databases has strengthened my interest in computer science and software engineering. I am seeking postgraduate study in Computer Science to strengthen my theoretical foundations, broaden my technical knowledge, and develop the ability to solve complex computing problems.

Education

Bachelor of Technology (B.Tech) in Mechanical Engineering 2020 – 2023
Shadan College of Engineering and Technology
Affiliated to Jawaharlal Nehru Technological University Hyderabad (JNTUH)
Final result: 7.35

Certifications and Professional Training

Java Full Stack Developer – Certification Course
JSpiders Institute 6 months
Certificate obtained

Python Developer – Certification
Narest IT Technologies
Certificate obtained

Professional Experience

Software Engineer January 2025 – Present
Asian Crowd Tech Pvt. Ltd.

- Develop and maintain web application interfaces using React.js, Next.js, JavaScript, and TypeScript.
- Build reusable UI components and responsive layouts for different screen sizes.
- Integrate REST APIs and support application workflows, authentication, and data handling.
- Use React Query for API data fetching and caching.
- Work with MongoDB and PostgreSQL in application data-integration workflows.
- Use Git and GitHub for version control and collaborate with team members on implementation, debugging, and code reviews.

Web Development Tutor July 2025 – September 2025
Loma IT Solutions – Virtual, Visakhapatnam, India

- Taught web development to final-year B.Tech students, covering HTML, CSS, JavaScript, React.js, and Node.js.
- Explained web development concepts and supported students' practical learning.

Web Developer Intern August 2024 – December 2024
ABTS

- Developed responsive web interfaces using HTML, CSS, and React.js.
- Worked with reusable components and addressed UI issues to improve usability and maintainability.

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, Java, Python (familiar)

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Material UI, React Hooks, Context API, responsive design

Backend Development: Node.js, Express.js, REST APIs, authentication, frontend–backend integration

Databases and Data Handling: MongoDB, PostgreSQL, JSON, API data handling, React Query, caching

Development Tools: Git, GitHub, Figma, Vercel

Transferable Skills

- Analytical thinking and problem-solving
- Technical communication and collaboration
- Initiative, curiosity, and willingness to learn
- Ability to manage multiple priorities and contribute to team goals

Areas of Interest

Computer Science, software engineering, web application development, backend development, database-driven applications, programming, and maintainable software systems.
